BIG SANDY NEWS.

FRIDAY, JUNE 9, 1893.

Maybo.

Some day we'll be so happy
That it will come to pass
That men will hold their peace
In boxes made of glass.
—Washington Star.

Spencer, leader in Lucan and land.
Spencer, sole agent for Obelisk floor.

Five line of portmanteaus at A. M. Hughes.

A. J. Garred went to Ashland yesterday.

Fresh "P" Nuts roasted every day at Hatcher's.

Try a glass of pure crab cider at Sullivan & Kise.

Born, Monday, to the wife of T. Jeff Wilson, a boy.

Spencer gets 25 barrels of flour three times a week.

THIS MEANS BUSINESS.

A Strong Milling Firm For Louisville.

The Louisville Milling Company has been organized at this place and has purchased the plant of the Louisville Roller Mills from Capt. M. Froese. The stock subscribed is \$100,000. The organization has been completed as follows: Maj. D. J. Burnett, President; Col. Jay H. Northrup, Vice-President; and these in connection with Judge T. T. Harris, Dr. H. S. Sweetman and J. T. Leonard form the board of directors. The company is made up entirely of prominent local business men, who propose to run the business in a manner which will ensure success. Their plant has the modern machinery capable of turning out the very best work. The little repairs needed will be put on immediately. A large stock of grain has just been received and orders for grinding in the mill will be filled at once. Every thing from the highest grades of flour down to all kinds of feed will be kept on hand in large quantities. Mr. Leonard, a practical miller of long experience and superior ability is in charge, and being a stockholder has the interests of the business thoroughly at heart. It is to the interest of this section that a first class mill shall be in constant operation at this point and it behooves our citizens and the people of the surrounding section to give it their patronage. This the firm asks only on the merits of their goods. Give them a trial and test the quality of their products and the manner of their dealing.

Abstract of Proceeding of Town Council.

Regular meeting June 6th. The resolution passed at a previous meeting releasing Sachs & Davis from paying poll tax was rescinded.

There being only one member of the finance committee present there was no report from that body.

The improvement committee was directed to build a stone crossing from Jones corner to W. H. Hays.

Marshal directed to notify sundry parties to pay by August 1st, and failing to comply the work to be done by the town.

Town attorney directed to write to the Superintendent of the U. & O. railway asking that he have the street cleaned out and put in order.

Adjourned to meet Wednesday.

June 7th. Board met pursuant to adjournment. An ordinance was passed forbidding the watering of horses at the public well under a penalty of five dollars fine.

Supervisors were allowed eight dollars each for their services.

W. H. Wallick was exonerated from paying tax on \$750.

It was made unlawful to ride a bicycle or tricycle on the Main street sidewalk from Jefferson to the river, excepting the north side of the public square, under a penalty of a fine of five dollars.

West Walter Walker, from blacksmith shop, a criminal offender, also sundry other streets.

Louis Milling Company allowed to put in a railroad siding as to allow them to haul coal.

160 Conversions

Since the beginning of the wonderful meetings being held at this place by Miss Cartwright there have been 160 conversions up to the present time and the number of penitents is still very large. It is probably the most successful series of meetings ever held here. Mrs. Hughes, who was with Miss Cartwright to conduct the song service, was called home Wednesday by a telegram announcing the dangerous illness of her mother.

While in Catlettsburg this week we were in Norris & York's new grocery store. It is in the building formerly used by the Big Sandy National Bank, and is the most attractive grocery store in town. The building is a substantial brick in the center of town and is owned by the firm, which is composed of Elsworth Norris, formerly of Louisville, and his nephew Sam York, also known here. Their many friends are glad to know of the successful business which their close attention to business and their straightforward manner of dealing has brought them. They have a large patronage.

There are always lots of suckers left, no matter how many are caught. The Ashland News says: "Green goods men from Cincinnati and New York are both flooding this section at present with the circulars offering inducements that the unscrupulous are likely to take at with the same avidity as old. All the talking one may do through the press will never be sufficient to prevent such lawless men from making the sorrow of the honest and the amusement of the gullible men, when it is known, so far as one of the surrounding country has been caught, but it will be a surprise to hear at any time that the act has been done to perfection."

Have you seen Hatcher's line of candy? It is by far the finest ever brought to Louisville.

Spencer always in the lead.

A WEEK OFF.

Kentucky Editors Have Their Annual Oiling.

About two hundred persons in Kentucky of whom we know are just now engaged in the popular pastime of "oiling backward." They are the members of the Kentucky Press Association and the lady relatives and friends who accompanied them to Louisville and Chicago last week. From the time the date and programme of the annual meeting was announced, until the time rolled around, the country editor—if not his city brother—looked forward to it with pleasant anticipations. All we expected was realized and a great deal more.

We shall not attempt to fully describe our royal time, as it would be impossible to do it justice in any reasonable amount of space.

We feel safe in saying that no extra party with a liver went out of Louisville received more courtesies or more liberal treatment than this one, which assembled in Louisville on May 27th and proceeded to Chicago the next day.

The first meeting was held in the Commercial Club Hall in Louisville. In a polished address, spiced with rich sallies of humor, Dr. E. R. Palmer, of the Commercial Club, welcomed the Association in a manner which made them feel that the city was theirs. Mr. Bowden, President of the Commercial Club, then got in a few good looks for Louisville as the site of the State Capital. He was followed by our worthy President C. M. Maccham, who very gracefully held up our end of the formal welcoming business. His address was extremely humorous, and this and his bald head caused him to be dubbed "Bill Nye." The magic badges, street car checks and the return railroad tickets from Chicago were then distributed. In response to calls Col. Polk Johnson and Mr. Emmett Logan made happy talks, the former, in so doing, "breaking a pledge to his wife."

The members were then entertained at the Collier-Johnson editorial rooms, where an elegant lunch was enjoyed. The visitors were shown through the magnificent establishment from basement to roof.

Next came the concert and supper at the beautiful Liberty Bell Park in the evening. The musical program was short, but the choice to be had from the city's eminent corps of vocalists and instrumental performers. The supper, which was an informal affair, arranged to allow us to fully enjoy the good things of life, was certainly a delicious affair. The main cards continued in a laudable description under each dish, and on the outside of this advice: "Eat, drink and be merry, for tomorrow you go to Chicago."

According to arrangements the members met on Saturday at the depot, and at 2:30 a special train of four elegant palace cars pulled out, bearing only the Association party, which numbered nearly 200. Jack and Sam York, of Louisville, took the quickest ever made, taken between the two cities, notwithstanding that there was a considerable delay caused by a "hot box." A dining car was attached at Indianapolis and a superb meal served to all on board. This was all free, the expense being borne by the Pennsylvania railroad line. Better service, faster trains and a smoother ride are not found anywhere than this line has. The Pennsylvania Company is one of the strongest and most enterprising and allows no other line to outdo it in any respect. The association will never forget Mr. Haggerty, the gentlemanly Louisville agent of the road.

IN CHICAGO.

Arriving in Chicago the association divided its number between the Palmer House and the Great Western Hotel, where they were shown many attentions.

The members were not long in discovering the wand-like power of the tasteful red badges, which they wore in plain view. The badges bore simply, in bold black letters, "K. P. A." with a modest "1893," but before their potent charm the most obstinate door-keeper turned pale and left back helplessly, not recovering until we were comfortably seated within. It was a sight worth an admission fee to witness the efficacy of the badge which the famous Chicago rhymer strove to wrest from the bosom of that bright meteor, Bob Morningstar, as he hustled about amongst the "pay" shows in the Midway Plaisance, with the association at his heels, looking for managers and then overlooking door-keepers.

We saw, free of cost, every show around the grounds, including Buffalo Bill's Wild West, and most of them were visited upon special invitation. Many of the thespians, the actors of the city and the magnificent panoramas extended the same courtesies. We were also supplied with passes to the World's Fair grounds.

On Wednesday a meeting was held at the Kentucky building, after which a sumptuous dinner was served. Mr. Sam J. Roberts, of Lexington leader, was elected President of the Association for the ensuing year and Mr. I. L. Nail was promoted from secretary to

ABSOLUTELY PURE

MONON RAILROAD.
The return tickets over the famous Monon route were good to bring us home as late as the 15th inst., but nearly, if not quite all the members were called back by their business at the close of the week. We found the Monon elegant in all its appointments, a first class road in every respect. The long journey is made really pleasant by the superior service it affords. Mr. Trush, the Louisville agent, was very solicitous for the comfort and welfare of the editorial party, and thereby won their lasting gratitude.

Those are briefly the outlines of a highly enjoyable outing of a lot of hard worked editors, who have already begun another year's grinding.

For the next few weeks we shall give our readers something about the World's Fair, but promise to administer it in broken doses small enough to be safe.

Even the bold, bad Chicago fairer looked upon the badge as inviolable and not one of our gang was "bushed."

The badges attracted considerable attention, and in answer to a query as to the meaning of "K. P. A." one of the members answered that it signified that we "Kant Pay Anything." Well, at long rate, we do p. a.

"Fine of the boys" of the gang rushed up to a Columbian guard who was pacing a beat on the lake shore and anxiously inquired, "are the wild waves saying?"

For freshest groceries in

No Glorious Fourth.

Preparations for a big celebration of the 4th of July in Louisville have begun already and it is intended to make it by far the most brilliant and the most enjoyable affair. All the new features possible will be introduced.

Wholesale Libel.

It may not be giving things away to say that the Kentucky editors went to Chicago armed to the teeth. —Cleveland Plain Dealer.

The Kentucky Press Association is now visiting the sideboard at the Kentucky building in the World's Fair.—Appeal-Avalanche.

The Kentucky Press Association took hardly anything at its recent annual rally, and it hopes to be a temperance society soon.—St. Louis Post-Dispatch.

The Kentucky editors are returning from Chicago in good spirits. The good spirits were the other way when they started.—Cincinnati Tribune.

The unceremonious of the Kentucky building at the World's Fair was an agreeable and impressive ceremonial.—Kansas City Star.

When the Kentucky editors got through with the "Old Kentucky Home" at Chicago there was not enough "red ticker" left in the establishment to fill the tube of a thermometer.—New York World.

New Law as to State College Appointments.

A new law is now in effect regarding county appointments to courses in the State College at Lexington. Each county is allowed to send one person each year, free of expense for traveling, tuition, room rent in dormitories, fuel and lights. The conditions are that the applicant shall have a certificate of good moral character from the citizens; shall be between fourteen and twenty-four years old, and shall have completed the common school course, preference being given to young men or women whose means are limited.

The new law also allows four appointments from each county to the Normal course under about the same requirements as given above for the College course. Those desiring to attend the A. & M. College will do well to look into it.

Graduation and Competition Examinations.

An examination of applicants for certificates of graduation in the common schools will be held at Fallsburg, Lawrence county, on Friday, June 16th. Also at the same time and place, a competition examination of applicants for county appointment to the State College will be held. Persons between the ages of fourteen and twenty-four are eligible to the latter examination.
